

Important: A client, [Good Harvest Bakery](#), will be used throughout this sample submission. You may NOT use the Good Harvest Bakery client for your project.

For the Touchstone Tasks and final Touchstone, you must select one of the three approved clients from the list provided in [Client Scenario and Criteria](#) - Bloom Valley Nursery, ABC Fitness Studio, or Book Haven Bookstore.

Name: Sophia Student

Date: 01/17/2024

Task 2.2: Adding Style to the Webpages using CSS

Overview

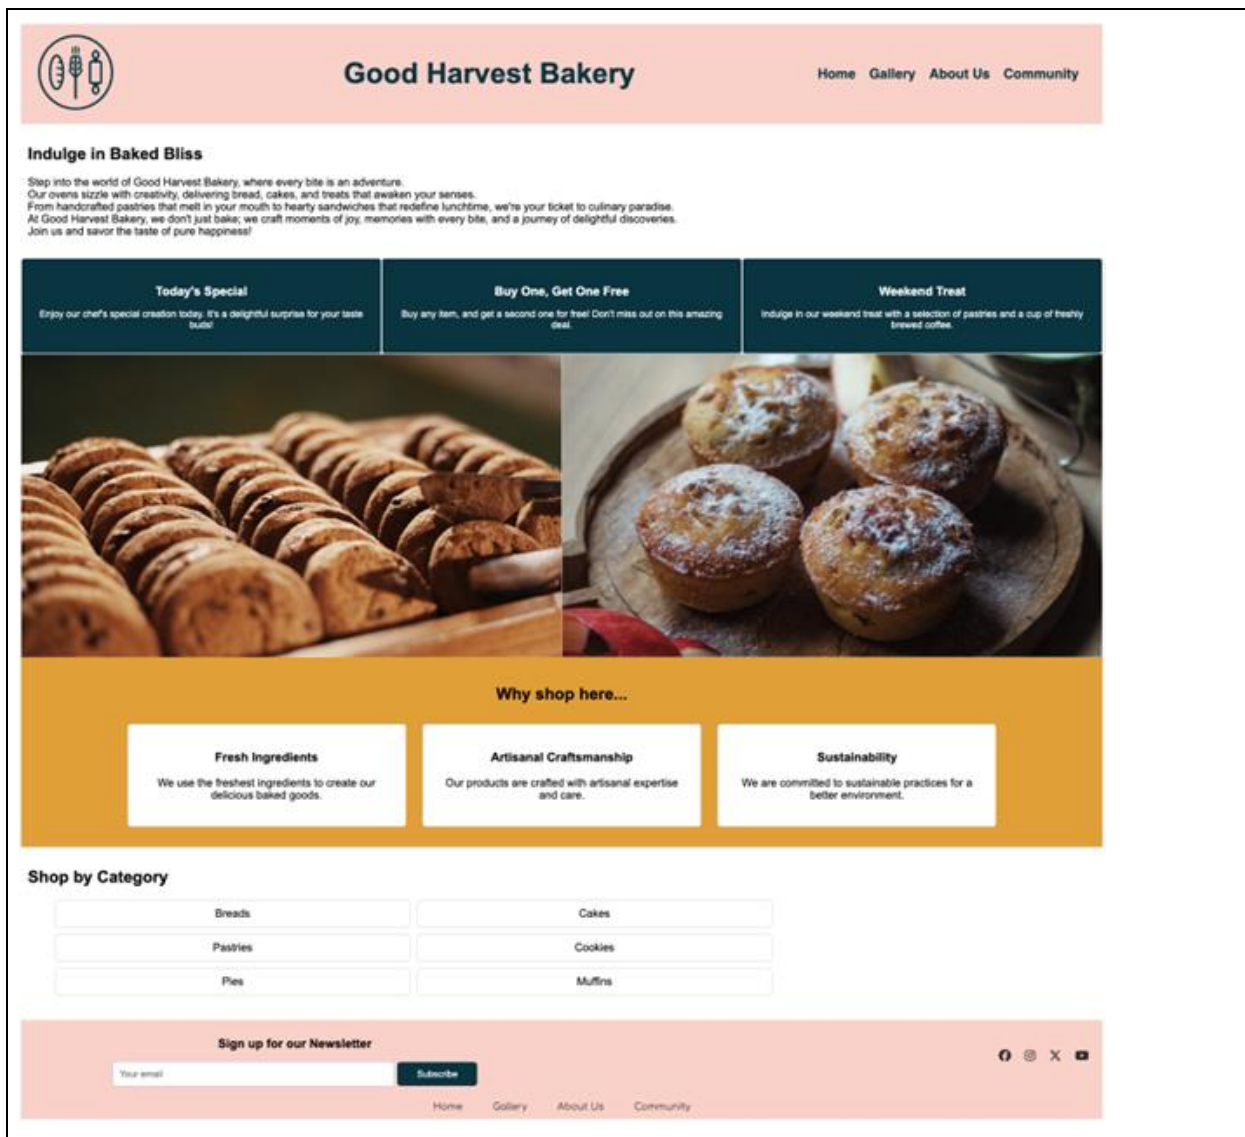

In this Touchstone task, you will create an external CSS file to add styling and colors to the HTML pages. The majority of the styling should be incorporated using an external CSS file. Inline and/or internal CSS styling can only be used when needed but should be minimal. Document any issues or errors you encounter in your code development that prevent your stylesheet or webpages from functioning as intended.

Instructions

Provide your responses in the following table.

Rendered Homepage Screenshot

<i>Hint: Provide the screenshot for the rendered Homepage.</i>
--

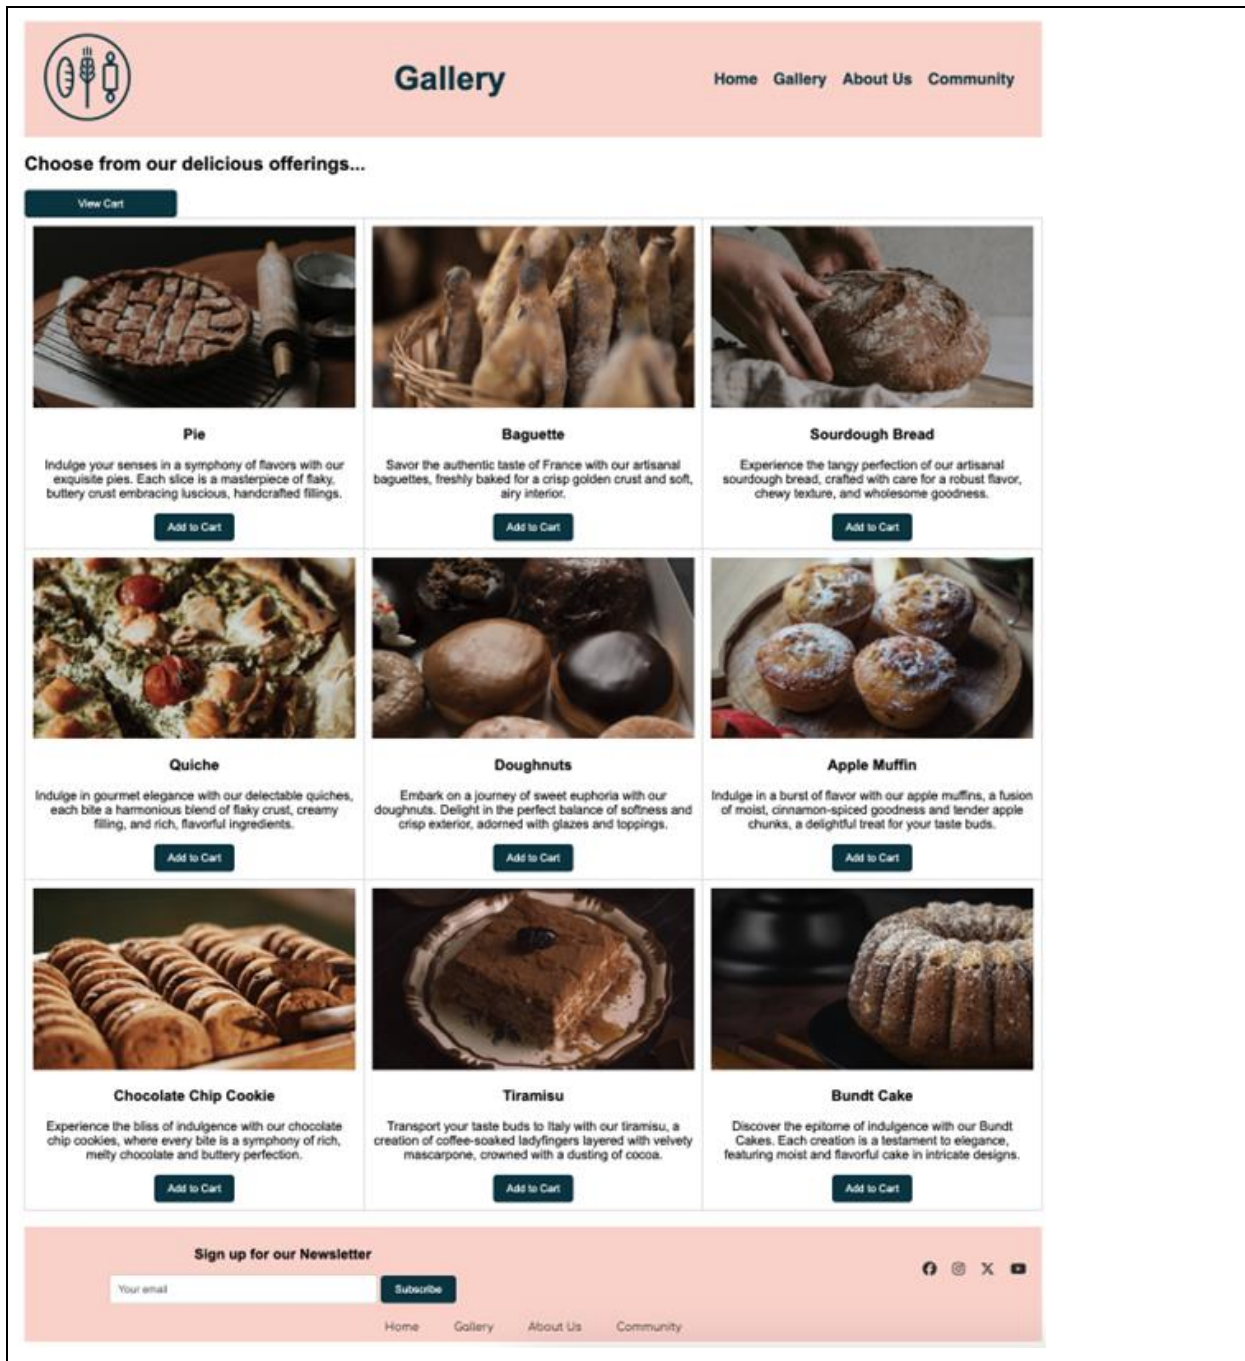

Homepage Analysis

Hint: Provide a brief description about the rationale of the CSS styling in the Homepage.

- The promo section is organized as a bordered box, where each box takes one third of the width of the webpage. The background color for the promo boxes is styled with the deep teal (Midnight Harvest #013C4A) color.
- The two item images are organized horizontally, each taking half of the width of the webpage.
- The shopping perk section is styled as bordered boxes, where the section background color is set as the goldenrod yellow (Sunlit Wheat #E7A827) color to add a pop of energy and to draw attention to the content. The shopping categories are organized as a list containing two columns.

Hint: Provide the screenshot for the rendered Gallery page.

Gallery Page Analysis

Hint: Provide a brief description about the rationale of the CSS styling in the Gallery page.

- Nine item images are displayed as a 3x3 table.
- Each cell in the 3x3 table has the following items:
 - Item image, item name, and description in the center
 - An “Add to Cart” button with a hover styling added to it
- A “View Cart” button is at the top left of the page.
- The shopping cart window is designed as a modal window that lists the items added to the cart.
 - The window is hidden by default but becomes visible when the “View Cart” button is clicked.

- The modal window has a white background and contains the two buttons “Clear Cart” and “Process Order.” All the buttons have similar hover styling to the “Subscribe” button. The modal window also has an “X” icon at the top right.

About Us

We embarked on our journey as the Good Harvest Bakery, an artisanal bakehouse nestled in the heart of our town. Our ovens have been humming with delight for less than a year, and we're here to redefine the art of baking.

Our story is one of passion, sustainability, and creativity. We blend the finest ingredients to create a symphony of flavors that will tantalize your taste buds. From heavenly bread to delectable cakes, our creations are a culinary celebration.

We're more than a bakery; we're a welcoming haven where the aroma of fresh-baked goodness wafts through the air. Our mission is to be the wholesome alternative for breakfast and lunch seekers in our vibrant downtown community.

About Us/Contact Page Analysis

Hint: Provide a brief description about the rationale of the CSS styling in the About Us/Contact page

The business hours are displayed as a bordered table that covers the width of the page.

The content in the table is positioned at the center.

The Contact Us form contains input fields for the customer's name, email, address, phone number, and feedback/customer order information. There is also a checkbox for custom orders.

The form has "Submit" and "Clear Form" buttons that have a hover effect added to them. The "Clear Form" button is colored differently (#777777) than the "Submit" button.

Customer Spotlight

John Doe

As a regular customer, John always brightens our bakery with his warm smile. His favorite treat is our classic doughnuts, and he never fails to appreciate the delicate blend of flavors in every bite. We appreciate John's continuous support towards our bakery.

Jane Smith

Jane, an avid pastry enthusiast, has been an essential part of our community. She loves exploring our diverse range of pastries, and her thoughtful feedback has helped us refine our recipes and offerings. Jane's enthusiasm is a heartwarming presence in our bakery community.

Anna Smith

Anna has been a regular in our bakery since the beginning and her adoration for our Tiramisu and Bundt Cakes has been instrumental in refining these cherished treats. We are grateful for Anna's unwavering support and invaluable feedback.

Community Involvement

Local Charity Bake Sale

We actively participated in a local charity bake sale, raising \$1000 for charity XYZ. It was a heartwarming experience, knowing that our treats contributed to a meaningful cause.

School Outreach Program

Our involvement in a school outreach program was a joyous occasion. We provided free snacks for a local school event, bringing smiles to the faces of many students and supporting education in our community.

Events and Collaborations

Stay tuned for our upcoming events and exciting collaborations with the community!

We're thrilled to announce our participation in the upcoming local food festival, where we'll showcase our delicious creations. Join us for a day filled with food, fun, and community spirit.

Additionally, we're collaborating with local artists to host a special art exhibition at our bakery. It's a unique blend of flavors and creativity – an experience you won't want to miss!

Custom Page Analysis

Hint: Provide a brief description about the rationale of the CSS styling in the custom page.

- The customer spotlight contents are organized as bordered boxes, where each box contains the customer testimonials. The community involvement section is also styled the same way.
- Each bordered box in the customer spotlight section contains customer images and testimonials. The background color of this section is set as goldenrod yellow (Sunlit Wheat #E7A827).
- The community involvement section contents are organized as bordered boxes, where the background color of the boxes is styled as deep teal (Midnight Harvest #013C4A). Each bordered box contains the event name and descriptions.

Accessibility Analysis

Hint: Provide a brief description of how accessibility practices were followed on the website.

To provide an accessible experience to the user, all the colors applied to the website have been tested to be color-blind safe using this website: <https://color.adobe.com/create/color-accessibility>. To receive full credit, you will need to include at least two additional rationales for accessibility. Refer to Tutorial 2.4.5 for accessibility best practices and accessibility testing.

Responsive Web Design Analysis

Hint: Provide a brief description about how to adjust the website to be responsive for the mobile platform.

To make the website design responsive, the viewport would need to be set. In the webpage <head> tag, the meta tag defines the settings for the viewport. For the content, the width of the viewport is set to the width of the device. This is particularly important for responsive web design, as it ensures that the width of the page matches the width of the device, which is crucial for proper rendering on various screen sizes. The initial scale value is used to set the initial zoom level when the page is first loaded. A value of 1.0 means that the page is displayed at its original size without any zooming.

Testing and Error Reporting

Hint: While writing and testing your code, record any errors, and state your approach to fixing the errors. Did the outcome look the way you expected? Did you find anything particularly difficult to accomplish?

I did not have any issues with my code. All components function as intended.

The font color I initially picked did not work well when placed over the pink color background in the website header. I went back and tested all three font options in an accessibility checker tool, and I decided on a different color option that would be more aesthetically pleasing and accessible.
